

Program Information

ABR's channel number is one fourth the channel number for Espanol, and ABR's channel number is also numerically four greater than UTM

afterMASH only appears on 3 channels, and is even on 90 minutes in a row at one point, if you switch channels. Also it is the only show on two channels at the same time!

All programs starting with 'B' (including The Ben Stiller show) are either on directly before or after, or on a channel adjacent to, another program starting with 'B'

Ally appears twice on Repartee, which is on a channel one number greater than IBS, which shows Bridalplasty

An episode of Baywatch Nights on UTM started during the last 30 minutes of Blues Brothers 2000 on another channel

Boston common is on at 4:30 PM on ABR

Demand Hits has a schedule in alphabetical order, and the second channel from the top has a schedule all in reverse alphabetical order (by program name)

Fastlane starts at the same time as afterMASH and Kings

Grubbs is on at 4:30 PM on UTM

Mr. Personality is adjacent to Yellowbeard, either in time or channel

NGO never schedules programs on the half hour and all programs are durations of 1 hour or 2 hours

Nothing airs at 5:30pm on ABR, Repartee, OR Demand Hits

One could watch all of the movies in a row, if you're willing to miss the last half hour of each to catch the first half hour of another

Red Dawn, on the third-highest numbered channel, starts at the same time The Lone Gunmen does

The bottom (highest numbered) three channels are all even-numbered, and do not show Green Lantern OR Blues Brothers 2000 OR Cavemen
